EDUCATION & HONORS

Indiana University, Luddy School of Informatics, Computing, and Engineering Bloomington, IN
Bachelor of Science. May 2028
Major: Cybersecurity & Global Policy | **Minor:** Central Eurasian Studies with a Language GPA: 3.629/4
Honors and Awards:

- Hudson & Holland Scholar:** Merit based program recognizing academic excellence and leadership
- Provost Scholarship:** Awarded to students for excellent academic achievement throughout high school

TECHNICAL SKILLS

- Security & Networking:** Nessus, Nmap, GoPhish, Arctic Wolf, Tanium, Wireshark, OWASP Top 10, NIST, CIS Controls
- Programming & Scripting:** Python, SQL, Java, JavaScript, HTML, CSS
- Systems & Tools:** Linux, Kali Linux, Git/GitHub, Windows, macOS, Terminal, Microsoft Office, Google Workspace

PROJECTS

- MalwareScope** | Python, PyTorch, scikit-learn, FastAPI, SHAP | <https://github.com/benianwalls/malwarescope>
- Built an ML-powered static malware detector for Windows PE files, training Random Forest and PyTorch neural-network models on the EMBER2018/2024 benchmarks; best model detects 79% of malware at a deployable 0.1% false-positive rate
 - Added SHAP explainability, a calibrated UNCERTAIN band, and a VirusTotal cross-check, served through a FastAPI web dashboard, CLI, and a Chrome extension that scans downloads in real time
- LLM Agent Security Lab** | Python, Git, GitHub | <https://github.com/benianwalls/llm-agent-security-lab>
- Developed a vulnerable and defended LLM-agent environment to evaluate indirect prompt injection, mock data exfiltration, system prompt leakage, and unsafe tool execution in a controlled sandbox.
 - Included security guard rails outside the model, such as least privilege tool access, output encoding, and recipient restrictions.

PROFESSIONAL EXPERIENCE

- Indianapolis Airport Authority** | Indianapolis, IN May – August 2026
Cybersecurity Intern
- Supported enterprise cybersecurity operations through vulnerability management, asset inventory oversight, risk assessments, and compliance-related security activities.
 - Assisted SIEM monitoring, endpoint security management, threat investigation, and security awareness initiatives to strengthen organizational security posture.
- Indiana University UIITS** | Bloomington, IN August 2026 - Present
Student IT Support
- Providing technical support for students, faculty, and staff across account, device, Wi-Fi, and software issues
 - Documenting tickets, troubleshooting issues, and solve problems while following IU service procedures
- ByteShield Solutions** | Bloomington, IN. August 2025 - Present
Contracted Security Solutions Specialist
- Conducting Nessus scans to find security weaknesses, reporting 35+ high-risk issues per project with 95% remediation
 - Reviewing firewalls, devices, and network rules, reducing unauthorized access attempts by 40%
 - Creating phishing tests using Go Phish, helping reduce risky clicks by 45%

LEADERSHIP & INVOLVEMENT

- Engineering Club** | Bloomington, IN April 2026 – Present
President
- Actively recruiting and managing an executive board of 7 members and 400+ total members
 - Leading the day-to-day operations of the club, planning events, running meetings, and keeping projects organized
- Cybersecurity Club** | Bloomington, IN September 2024 – Present
Member
- Participating in hands-on cybersecurity activities including ethical hacking, threat analysis, and network defense
 - Attending workshops on cloud security, ethical hacking, and malware analysis to stay up to date with evolving threats

CERTIFICATES

- Google Cybersecurity Certificate** | Coursera October 2025
- Foundational training in network security, risk management, threat analysis and incident response, with hands-on work
- GenAI 101 Certificate** | Indiana University June 2026
- Developed a foundational understanding of generative AI concepts, prompt engineering, and responsible AI practices
